1. Agreement to Terms

By purchasing, subscribing to, joining, accessing, or using BonoTrades, including any paid Whop product, Discord server, premium channel, educational material, trading signal, market commentary, livestream, course, video, written analysis, or related service, you agree to these Terms of Service.

If you do not agree with these Terms, do not purchase, subscribe to, access, or use BonoTrades.

By remaining in the BonoTrades community after purchase or access, you confirm that you have read, understood, and accepted these Terms.

2. Nature of the Service

BonoTrades provides educational and informational content related to trading, financial markets, market structure, technical analysis, price action, futures trading, risk management, trading psychology, and related topics.

BonoTrades may provide access to:

- Educational courses and lessons.
- Premium Discord channels.
- Market commentary and trading insights.
- Trade recaps and breakdowns.
- Live trading sessions or live market discussions.
- Trading signals or alerts.
- Strategy explanations and educational resources.
- Community discussions and member support.
- Other digital products, services, or materials made available through Whop, Discord, or official BonoTrades platforms.

BonoTrades does not provide personalised financial advice, investment advice, legal advice, tax advice, or professional financial planning services.

3. Not Financial Advice

All content provided by BonoTrades is for educational and informational purposes only.

Nothing shared by BonoTrades, its owner, staff, moderators, affiliates, or community members should be interpreted as financial advice, investment advice, trading advice, or a recommendation to buy, sell, hold, short, long, trade, or invest in any financial product, security, futures contract, cryptocurrency, commodity, or other asset.

You are solely responsible for your own trading decisions, risk management, financial decisions, profits, losses, account performance, and actions.

Trading involves significant risk. You may lose some or all of your capital. Past performance, trade examples, member results, backtesting results, payouts, profits, screenshots, testimonials, or educational examples do not guarantee future results.

4. No Guarantee of Results

BonoTrades does not guarantee that you will become profitable, pass a funded account evaluation, receive a payout, make money, avoid losses, or achieve any specific trading outcome.

Any examples of profits, payouts, evaluations passed, member wins, trade results, or testimonials are for educational, illustrative, and marketing purposes only. They are not guarantees, promises, or projections of future results.

Your results depend on many factors outside BonoTrades control, including but not limited to your discipline, risk management, execution, psychology, market conditions, account size, broker or platform performance, slippage, commissions, rules from prop firms, and your own decision-making.

5. User Responsibility

You understand and agree that:

- You are responsible for doing your own research before making any trading decision.
- You are responsible for understanding the risks of trading before participating in any market.
- You are responsible for your own entries, exits, position sizing, stop losses, take profits, and risk exposure.
- You should not blindly copy trades, signals, alerts, or commentary.
- You should only trade with capital you can afford to lose.
- You are responsible for complying with all laws, regulations, platform rules, broker rules, exchange rules, and prop firm rules applicable to you.

BonoTrades is not responsible for any financial loss, missed opportunity, failed evaluation, denied payout, account breach, account suspension, trading mistake, emotional decision, or misuse of information.

6. Signals and Trade Alerts

BonoTrades may provide trading signals, trade alerts, market bias, trade ideas, execution commentary, or live trading insights to premium members.

These signals are provided for educational and informational purposes only. They are not instructions, guarantees, financial advice, or personalised recommendations.

Signals may be based on real-time market conditions and may change quickly. Markets can move rapidly, and entries, exits, targets, stop losses, or bias may become invalid at any time.

You understand that:

- You are not required to take any signal.
- You should not blindly follow any signal.
- You are responsible for deciding whether any trade is suitable for you.

- You are responsible for your own execution and risk management.
- BonoTrades is not responsible for losses caused by following, copying, delaying, misreading, or misusing any signal or trade alert.

7. Digital Product Access and Delivery

BonoTrades products are digital products and services.

Access may include Discord access, Whop access, course access, premium channels, written content, live discussions, signals, videos, educational resources, or other digital materials.

Once access is granted to any paid BonoTrades product, premium Discord area, course content, signal channel, private material, or member-only resource, the digital product is considered delivered.

You acknowledge that digital products can be consumed, copied, viewed, screenshotted, recorded, or used immediately after access is granted. Because of this, all sales are final except where required by law or where BonoTrades specifically approves a refund under its Refund Policy.

8. Payments, Subscriptions, and Billing

Payments, subscriptions, billing, renewals, cancellations, and access management may be processed through Whop or another official payment platform used by BonoTrades.

By purchasing, you agree to pay all applicable fees shown at checkout.

For subscription products, you are responsible for managing and cancelling your subscription before the next billing date if you do not wish to continue. Failure to cancel before renewal does not automatically qualify you for a refund.

BonoTrades is not responsible for a customer forgetting to cancel, failing to manage their subscription, failing to read the product details, or deciding after purchase that they no longer want access.

9. Refund Policy

Unless otherwise required by applicable law, all purchases are final and non-refundable once access has been granted to BonoTrades digital products, premium Discord channels, educational materials, signals, live sessions, courses, or private community areas.

Refunds may only be considered in limited circumstances, such as:

- Accidental duplicate payment.
- Payment processor error.
- Technical access issue caused by BonoTrades or the payment platform that prevents access and cannot be resolved.
- Other exceptional cases approved by BonoTrades at its sole discretion.

Refunds will not be granted for:

- Using or accessing premium content and then requesting a refund.
- Changing your mind after purchase.
- Forgetting to cancel a subscription.
- Failing to use the product.
- Not having enough time to participate.
- Not achieving desired trading results.
- Losing money while trading.

- Failing a funded account evaluation.
- Disagreeing with a trade idea, signal, market view, or educational concept.
- Claiming the product was not useful after accessing the materials.
- Being removed for violating community rules.
- Attempting to copy, leak, mirror, resell, or redistribute BonoTrades content.

Refund requests must be submitted through the proper Whop process, through Whop Support, by contacting BonoTrades via Whop, or by opening a support ticket in the official BonoTrades Discord server.

BonoTrades may provide evidence of access, usage, delivery, Discord activity, product descriptions, policy acceptance, or other relevant records when responding to refund requests, payment disputes, or chargebacks.

10. Chargebacks and Payment Disputes

You agree to contact BonoTrades through Whop, Whop Support, or a Discord support ticket before opening a chargeback, payment dispute, or external claim.

Fraudulent, abusive, or bad-faith chargebacks may result in immediate termination of access, removal from the community, permanent ban from future products, and submission of evidence to Whop, payment processors, or relevant dispute systems.

Evidence may include proof of purchase, access logs, Discord activity, viewed content, accepted terms, messages, screenshots, product descriptions, and policy documents.

All BonoTrades content is the intellectual property of BonoTrades unless otherwise stated.

This includes but is not limited to:

- Trading models.
- Trade ideas.
- Signals.
- Market analysis.
- Educational lessons.

- Charts and screenshots.
- Livestream content.
- Community documents.
- Frameworks, terminology, explanations, and strategy breakdowns.
- Branding, logos, visuals, and promotional materials.

You are granted a limited, personal, non-transferable, non-exclusive license to access and use BonoTrades content for your own personal education only.

You do not own the content. You may not copy, reproduce, distribute, resell, leak, mirror, publish, modify, sublicense, teach, repackage, upload, share, or commercially exploit any BonoTrades content without written permission.

12. No Redistribution or Signal Mirroring

You may not copy, mirror, forward, redistribute, resell, or share any BonoTrades signals, alerts, analysis, trade ideas, educational content, screenshots, Discord messages, videos, or premium materials.

This applies whether the sharing is free, paid, private, public, inside another Discord server, inside another trading community, on social media, through direct messages, or through any other platform.

You may not use BonoTrades content to operate, support, grow, or promote another trading group, signal service, mentorship, course, community, paid group, or commercial offer.

Violation of this section may result in immediate removal without refund and may lead to further action.

13. Account Sharing

Your BonoTrades membership is for you only.

You may not share your account, Whop access, Discord access, login credentials, premium channel access, course access, or any member-only material with another person.

You may not allow another person to use your paid access.

Account sharing may result in immediate termination without refund.

BonoTrades may offer live trading sessions, live market discussions, voice calls, group calls, Q&A sessions, or other interactive sessions.

These sessions are educational only. They are not personal financial advice.

BonoTrades does not guarantee that live sessions will occur at fixed times, every day, every week, or during specific market sessions unless explicitly promised in writing.

Live sessions may be changed, rescheduled, cancelled, shortened, or discontinued at BonoTrades discretion.

BonoTrades may update, modify, add, remove, restructure, pause, or discontinue any part of the service at any time.

This includes channels, lessons, pricing, live sessions, signals, community features, educational materials, Discord structure, Whop product structure, or membership benefits.

BonoTrades may improve or change the product over time and is not required to maintain every feature exactly as it was at the time of purchase.

BonoTrades does not control these third-party platforms and is not responsible for their outages, bugs, access issues, policy changes, account bans, payment issues, or technical problems.

Your use of third-party platforms may also be subject to their own terms, rules, and policies.

20. Limitation of Liability

To the fullest extent permitted by law, BonoTrades, its owner, staff, moderators, affiliates, contractors, and representatives will not be liable for any direct, indirect, incidental, consequential, special, punitive, or financial damages arising from your use of BonoTrades.
